According to SOLAS Container Weight Verification Requirement effective July 1 , 2016 , to provide a verified gross mass of packed container is mandatory before vessel loading. As a shipper, it is your obligation to provide a verified weight of your cargo to us before loading same into container. Failure to comply with this requirement will possibly result in container being rejected from loading onto vessel. Under such circumstance, you will be held fully responsible for the extra cost to incurred and also the corresponding legal liability.
